Creative Multiple perspectives Justify Debate Cause + Consequence Share a Story Make Connections Wider World Economise	<p>ENGLISH</p> <p><u>Diary of a Pauper Kid</u></p> <p>Year 5/6 will begin this term by drawing on their knowledge and experience of the Industrial Revolution and the children that kept it running. Pupils will create four diary entries of a child mill-worker as they begin their working life.</p> <p><u>Setting Description</u></p> <p>During this unit, pupils will imagine themselves to be intrepid explorers searching for a rare species of animal rumored to exist deep in the jungle. Using rich and varied descriptive language and the use of present tense to add suspense, this writing should produce a vivid picture of words that is easy for the reader to imagine.</p> <p><u>Instructional Writing</u></p> <p>As part of the Geography unit of using grid referencing and map work, pupils will devise and create a complex and comprehensive guide giving directions from one point of interest to another.</p>

Creative Multiple perspectives Justify Debate Cause + Consequence Share a Story Make Conne Wider World Economise	SCIENCE <u>Adaptation, Inheritance and Evolution</u> This term, Year 5/6 will study adaptation, inheritance and evolution in nature, specifically the peppered moth which underwent a rapid change due to the Industrial Revolution. We will use our knowledge of the period to better understand the reasons for this change and begin to appreciate why this was an important study in understanding and observing evolution. In addition to this, we will also be taking a closer look at binominal nomenclature – the process of naming a species using Latin – and its creator Carl Linnaeus.

Creative Multiple perspectives Justify Debate Cause + Consequence Share a Story Make Conne Wider World	ART <u>Arts and Crafts Movement</u> During the Industrial Revolution, many creatives and artists became frustrated with mass production and felt that artistry and craft were being lost to automated machinery. As a result, the Arts and Crafts movement was born. Characteristics of this style are ornate wallpapers and themes of nature and can be represented in multiple formats – from knitting to hand carved furniture. The purpose was to restore a bespoke and hand-made feel to decoration. With this in mind, Year 5/6 will design and produce their own intricate wallpaper using natural themes and pattern.

Creative Multiple perspectives Justify Debate Cause + Consequence Share a Story Make Conne Wider World Economise	COMPUTING <u>Blogging</u> This term, as part of Project 6, the class will be reflecting on their experiences in a digital space. A blog will be created in which pupils can post images, text and audio files documenting Project 6. This will also be a positive space for the pupils to comment on others work and provide an opportunity to learn online etiquette. <u>Networks</u> This term, we will also be introducing networks and their importance in modern society. We will be studying the variety of ways in which information and data is transferred, for example: the cloud, Wifi, Bluetooth, radio signals, HDMI, USB, etc. Pupils will also decide on the best method of transferring specific data.
